

EVERCOAT®

Innovative Repair Solutions that Perform™

EXCEEDING THE DEMAND

Today's professional collision centers demand products that perform and manufacturers that stand behind the products they produce.

Evercoat's METALWORKS® System is the most complete and diversified corrosion resistant body filler system on the market. With good, better, best, and ultra performance levels that are supported by a warranty that guarantees to maintain the original O.E.M. corrosion warranty*, there are METALWORKS System products that meet most every repair need.

CORROSION PROTECTION

Multiple levels of outstanding performance

At the core of the METALWORKS® System are advanced body fillers and putties that provide the performance that collision centers and automobile owners demand. We stand behind our performance by guaranteeing to maintain the original O.E.M. corrosion warranty.*

ULTRA

Advanced body fillers and putties formulated with the patented ECORESIN™ technology for ultimate performance that provides industry-leading sanding properties and adhesion to the broadest range of substrates.
